Dear Readers

Pakistan Journal of Neurological Surgery is recognized by The Higher Education Commission (HEC), Islamabad. The journal has been indexed in multiple International agencies like EuroPub UK, ICI (Index Copernicus), ISSN France, BASE Germany, Cross Ref, Eurasian Index, Asian Digital, PASTIC and PakMediNet.

COVID-19 Vaccination in Neurosurgeons

In a letter to President-Elect Josephs R. Biden on January 19, 2021, the American Association of Neurological Surgeons (**AANS**) emphasized the significance of COVID-19 immunization for neurosurgeons in order to reach the worldwide objective of vaccination. In a report, only one death is reported from 264,00,000 vaccinated people. In negative-vaccinated individuals, the death rate is 2-3% in younger adults, whereas 7-10% is reported in older people. COVID-19 was reported in less severity in those who were positive-vaccinated. According to a latest survey, 60% of Pakistani neurosurgeons were COVID-19 positive, mostly from the hospital environment. High level of acceptance and motivation is found in our neurosurgeons. 91% of our neurosurgeons have been vaccinated. Mostly received the SinoPharm and Oxford AstraZeneca.
